

BENETEAU FIRST 47.7

The ship's bottom is by Bruce Farr, it has the comfort of a cruiser of 15 meters, for those who love the fast cruise. The main deck, fully liveable, gives you the opportunity to lay down, sunbathe or to enjoy the fresh sea breeze under the large sunshades capable of being modulated. There is also a large cockpit with an horizontally pivoted and foldaway table which will permit to sit up to 8 people with all the comfort.

Both sail and motor offer great performances, in normal conditions we are faster than 9 knots. An experienced Skipper and an hostess will take care about everything you need for your stay, and they will delight you with sicilian gastronomic specialities. Professional competence and kindness on board will assure you the maximum quiet, and the best service in order to let you enjoy your holiday in our splendid island.
